SUMMARY

I am a developer motivated to continue learning and applying my skills in the world of development, combining attractive and intuitive interfaces with a robust backend.

English - C1 - Fluent
Spanish Native

EDUCATION

Advanced Higher Degree in Multiplatform Application Development
CIP FP Batoi – IES San Vicente
————————————————————————————————————
2024 Web Development Bootcamp
London App Brewery
————————————————————————————————————
Intermediate Level in Microcomputer Systems and Networks
CIP FP Batoi
————————————————————————————————————
Compulsory Secondary Education
IES Fray Ignacio Barrachina

EXPERIENCE

- **2024** **Full Stack Developer**
  NTTData
  - Working for Mapfre using the **SCRUM** methodology – **Agile**.
  - **Hexagonal Architecture** with **CQRS** design pattern.
  - **Angular** for frontend, **SpringBoot** and **MongoDB f**or backend.
  - Version control with **Bitbucket** and **Git**, promoting efficient collaboration.
  - Additional tools and technologies used: **Docker, AWS, Swagger, Jenkins, SonarQube, Jira, and Figma.**

- **2023** **FullStack Developer and Web Designer**
  Freelance
  - Design and development of web applications, from conceptualization to implementation, using **React, Angular, or Vanilla JavaScript** depending on the project, alongside robust architectures with **Node.js or Spring Boot**.
  - Responsible for fully **responsive design** and development, leveraging both **proprietary and public APIs**, with **SQL** databases such as **MySQL or PostgreSQL.**

- **2022** **Web Development Intern and RPA Consultant**
  Accenture
  - Collaborated on a project for **Repsol**, developing process automation solutions using **Blue Prism.**
  - Participated in all phases of the lifecycle, from identifying opportunities to the implementation and maintenance of **bots**.
  - UUtilized methodologies such as **Scrum**, ensuring iterative, high–quality deliverables

- 2020 **IT Technician – Fiber Optic Installation**
  Movitel.tv
  - **Installation, configuration, and maintenance of fiber optic networks,** providing technical support to clients for connectivity issue resolution**.**
  - Interpreted network diagrams and schematics, resolving **technical and analytical issues** effectively.

- +4 años **Logistica**
  - Trabajos de logistica en empresas como Actiu, Leroy Merlin, Smurfit Kappa o Inden Pharma

---

PROJECTS

- **ShellFitness:** A fitness web application built with React, featuring reusable components and styled using Material UI. Integrated an external API and deployed the project on Netlify. (https://shellfitness.netlify.app/)

- **Alttero**: Collaborated on the development of a web platform built with Vue and a PHP backend, utilizing artificial intelligence to track and animate videos. (https://alttero.com/)

- **BatoiPOP:** A mobile application inspired by Wallapop, developed using Java and Android Studio for the app, with Spring Boot for the backend

- Currently working on **personal projects** using technologies such as **Angular, Node.js, and Spring Boot.**

CERTIFICATIONS

- Javascript Master
- React Master
- Software Architecture – DDD
- Flutter Development Master
- PHP, SQL, POO, MVC Master

SKILLS

- HTML, CSS, Javascript
- Bootstrap,
- React JS, Angular
- Node.js. and Express
- Bash – ShellScripting
- Flutter, Dart
- Java, Android Studio.
- SpringBoot
- PostgreSQL, SQL.
- Git
